**EXAMINER'S AMENDMENT**

***Response to Amendment***

1. Applicant's amendment filed 03/21/2005 has been entered and carefully considered.

Claims 70 and 74 have been amended.

Claim 80 has been added.

***Examiner's Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Michael A. Jaskolski on 05/12/2005.

The applicant has been amended as follows:

Cancel claims 35-69 and 75-79.

Claim 80, line 7, deleted "using a processor to perform the steps of:"

***Reasons for Allowance***

3. Claims 1-34, 70-74, and 80 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:

Please see the previous office action and applicant's argument filed on 03/21/2005.

In combination with other limitations of the claims, the cited prior arts fails to teach a method for identifying at least a section of a first schematic associated with at least a section of a second schematic wherein each of the first and second schematics includes a set of components for configuring a system to perform a process and wherein the components of the first and second schematics are first and second different types, respectively, wherein the method comprising the steps of: examining the second schematic to identify at least one instance of components of the second type that are associated with the identified components of the first type; and when at least one instance of components of the second type is identified, rendering the at least one instance accessible, as recited in claim(s) 1 and 80.

In combination with other limitations of the claims, the cited prior arts fails to teach a method for use with pre-existing electronically stored electrical and mechanical schematics where the electrical schematic indicates a control system to be used to control mechanical components corresponding to the mechanical schematics, wherein the method comprising the steps of: providing at least one electronic visual display screen; displaying at least a segment of the mechanical schematics via the at least one display screen; and displaying at least the identified electrical components via the at least one display screen, as recited in the amended claim(s) 70.

In combination with other limitations of the claims, the cited prior arts fails to teach a method for use with pre-existing electronically stored electrical and mechanical schematics where the electrical schematic indicates a control system to be used to control mechanical components corresponding to the mechanical schematics, wherein

Art Unit: 2863

the method comprising the steps of: providing a specification that associates electrical components with mechanical components controllable by the electrical components wherein the specification includes a set of templates where each template includes a mechanical template icon sub-set and an associated electrical template icon sub-set where the electrical icon sub-set includes icons corresponding to electrical components for controlling mechanical components corresponding to the mechanical template icon sub-set; and when at least one mechanical component is selected on the mechanical schematics, identifying components on the electrical schematics associated with the selected mechanical component on the mechanical schematic, wherein the step of identifying components on the electrical schematics includes using the specification to associate mechanical schematic components with electrical schematic components, as recited in the amended claim(s) 74.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
